The Garden of Eden Quilt Block Pattern

You need 6 fabrics ranging from light to dark.

Use the chart below to determine what size to cut your patchwork pieces. For example, if you want a 10" block, you would use the measurements given in the highlighted column below. The chart may also indicate that some of your squares may need to be subcut either once or twice on the diagonal.

Block Assembly:

NOTE: For all seams, use a scant 1/4" seam and a 2.0 mm stitch length.

Arrange your patches as shown in the diagram at right. Pay careful attention to the placement of the Half Square Triangles, making sure they are turned the correct way.

First sew all HST (Half Square Triangle) units together to make squares. Press each HST to the dark side. Then sew together your HST's with the squares needed to make each corner unit.

Assemble the block as if it's a 9-patch.

Sew together a corner unit + a rectangle + a corner unit to make the first row. Repeat for the bottom row, and then sew the rectangles and square together to make the middle row. Finally, sew all three rows together to finish the block.

Your unfinished block should measure 1/2" more than your finished size. (i.e. For a 10" finished block, your block should measure 10.5")
