The David and Goliath Quilt Block Cutting Chart

You need 5 fabrics ranging from light to dark.

Use the chart to determine what size to cut your patchwork pieces. (For a 5" block, use the measurements in the highlighted column.) When only one measurement is given in the chart, that indicates that the piece is cut as a square of that size. The chart may also indicate that some of your squares may need to be subcut:

Sew all pieces together using a 1/4" seam and a 2.0mm stitch. Your unfinished block should measure 1/2" more than your finished size. (i.e. For a 10" finished block, your block should measure 10.5")

Cutting Chart:

Note: if you prefer the [Quick Sew method](#) for making HSTs, do not subcut pieces..

Patch Shape	Shape to cut	Subcut?	FINISHED SIZE
